

Consulting Solutions

Performance Management Systems:

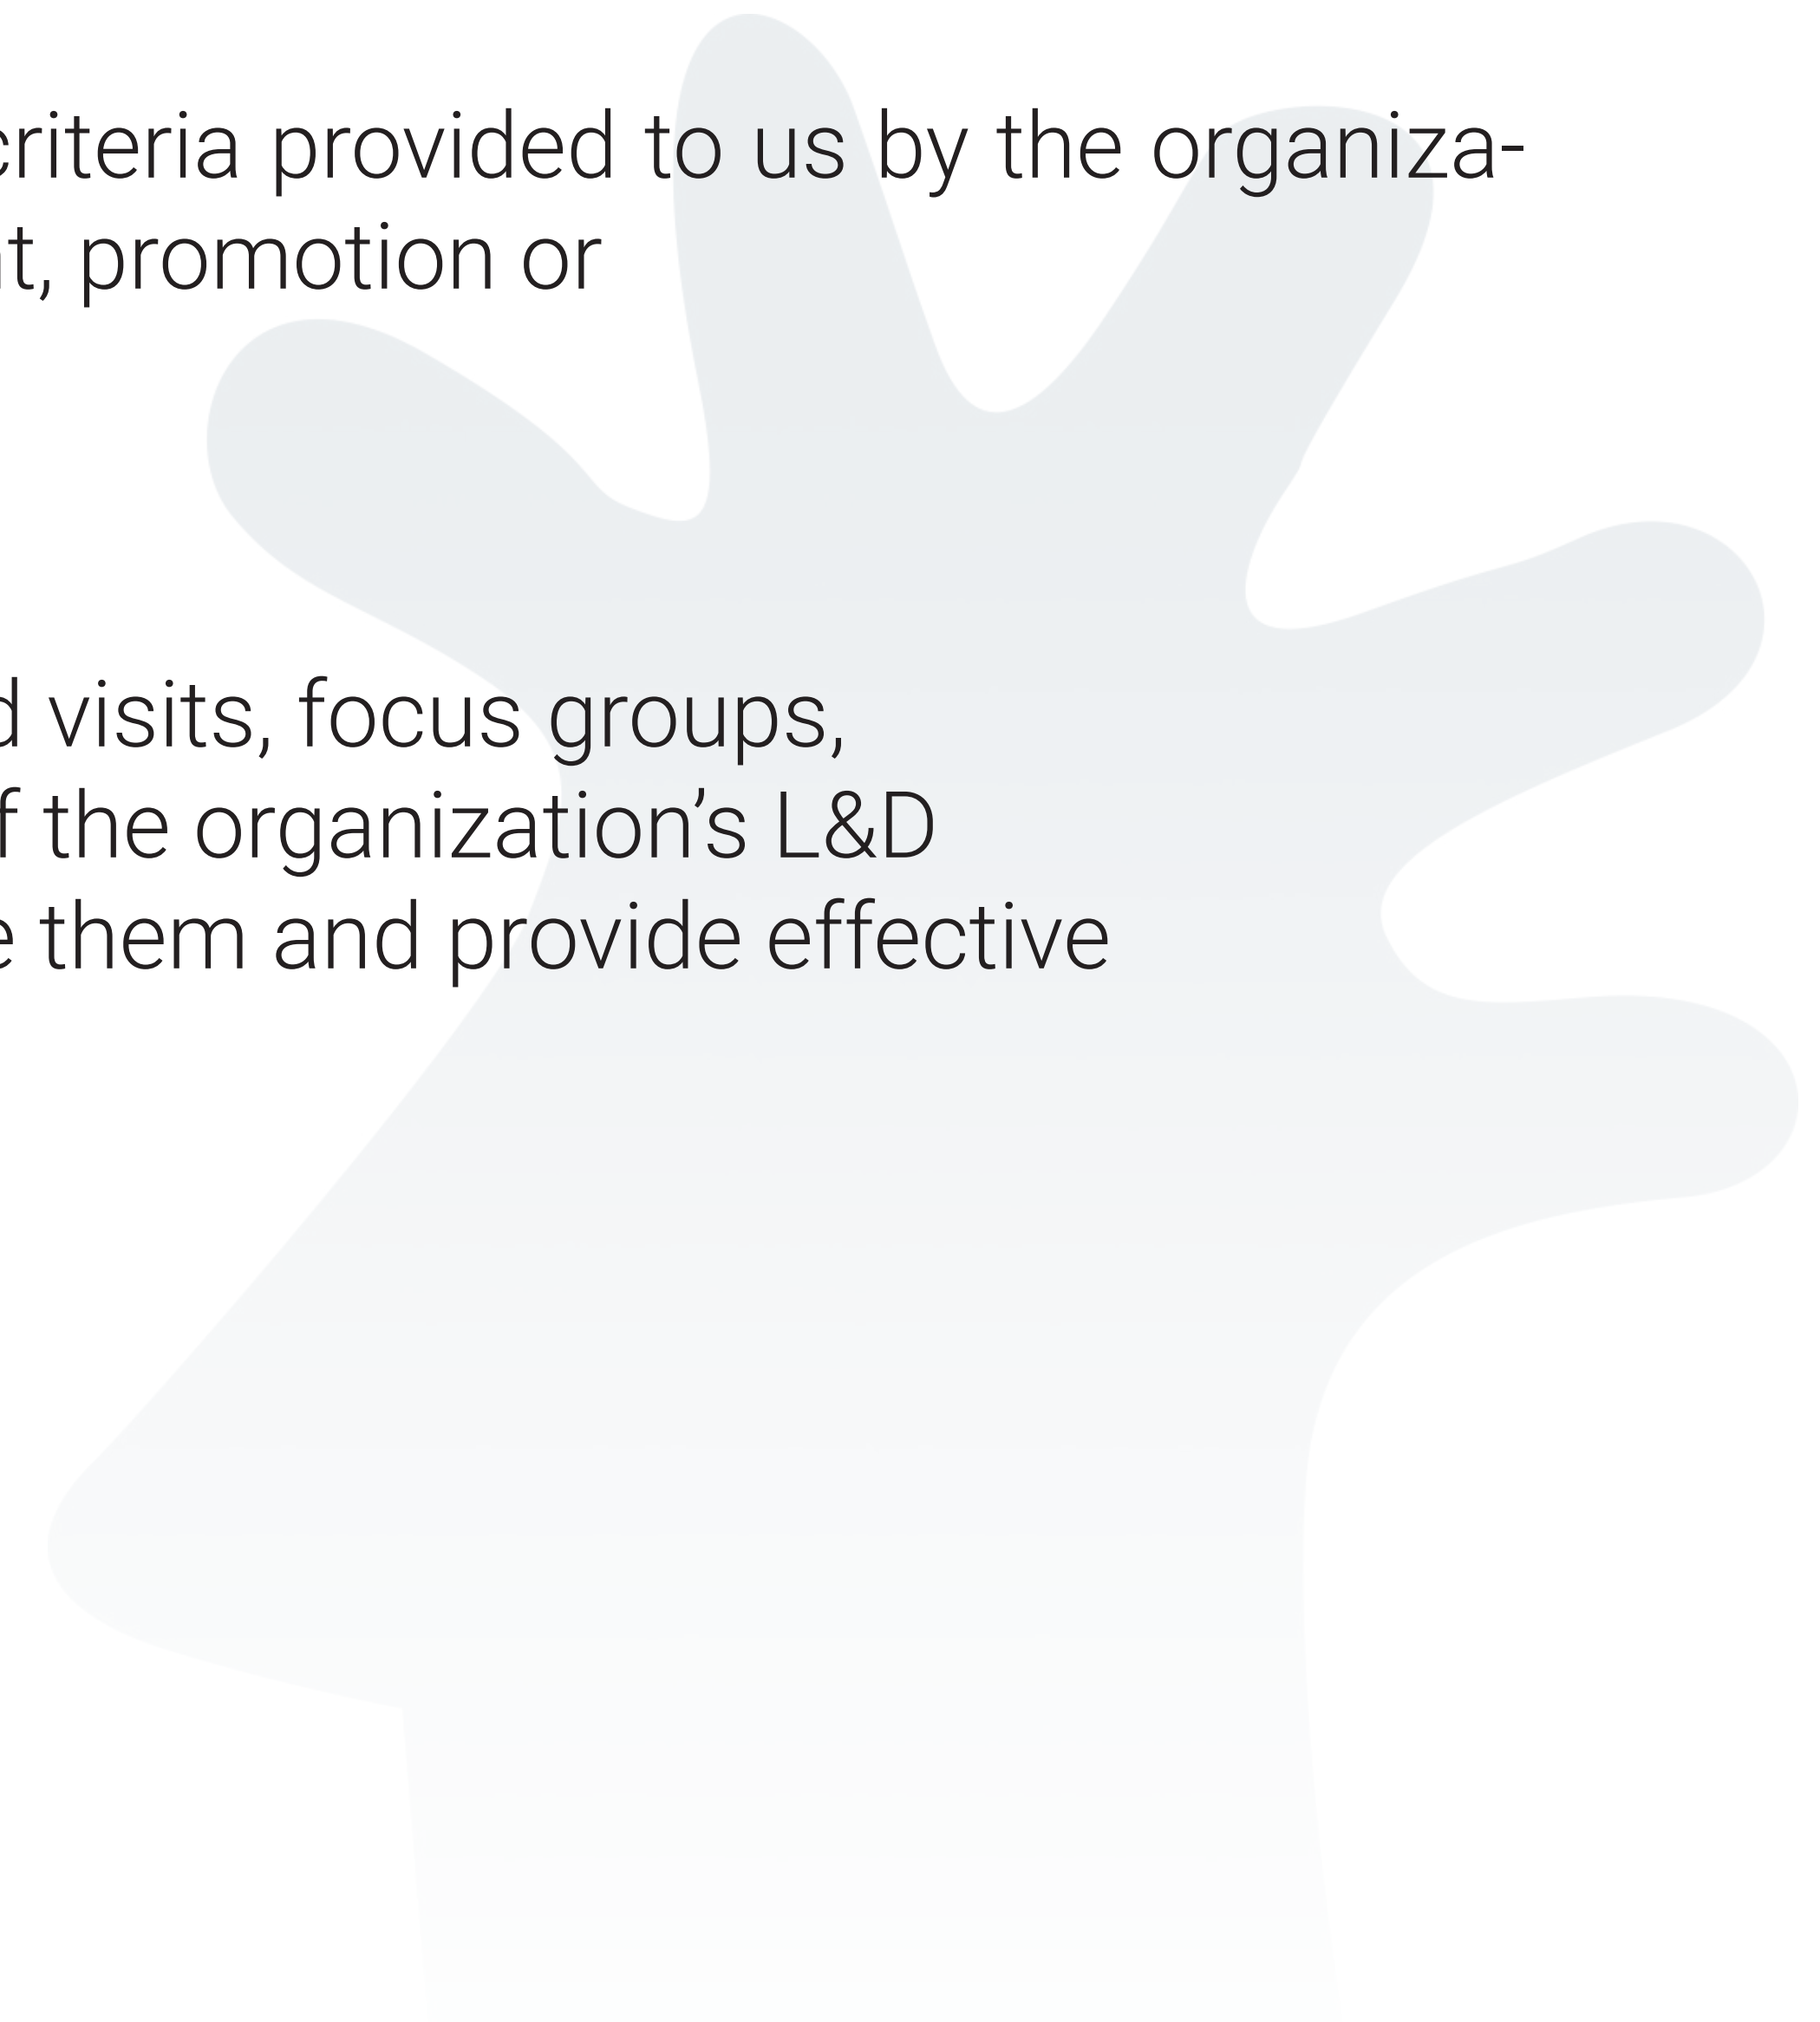

We develop holistic Performance Management Systems, either by upgrading your existing system or by working with you to build a new one from scratch.

Assessment & Development Activities and Centers:

We develop experiential assessment activities, based on the criteria provided to us by the organization. The assessment activities can be provided for recruitment, promotion or development of the employees.

Learning & Development Mapping:

We conduct a number of research methodologies such as field visits, focus groups, one-to-one interviews, surveys to gain a deep understanding of the organization's L&D department and how it operates, detect possible gaps, analyse them and provide effective solutions for closing the gaps.

One to One Coaching:

Executive coaching is an experiential and individualized leader development process through which we build a leader's capability to achieve short and long-term organizational goals. It is conducted through one-on-one and/or group interactions, driven by data from multiple perspectives, and based on mutual trust and respect.

ROI Measurement:

We help clients measure the efficiency of their investment in training or any other learning & development interventions by determining customized ROI parameters related to each specific project.

Human Student Consultants:

We help students find their strengths and their passion and ultimately their career path, using a world acclaimed methodology of individual planning. Human Student Consultants can be the catalyst for a smart career decision with the help of our Specialized Partners in the US and the UK.
